Experience Summary

Senior Mobile Engineer with 4+ years of experience building and shipping scalable Flutter applications for iOS and Android across multiple industries. Skilled in Clean Architecture, Riverpod, Firebase, RESTful APIs, and CI/CD, with a strong focus on performance, maintainability, and code quality. Passionate about solving complex engineering challenges, collaborating across cross-functional teams, and continuously learning to build reliable, user-centric mobile products.

Technical Skills

- **Languages:** Dart, Java, Swift
- **Framework & State Management:** Flutter, Riverpod, Provider, Bloc
- **Backend & Cloud:** RESTful APIs, Firebase (Authentication, Cloud Firestore, Cloud Functions, Cloud Messaging, Analytics, Crashlytics)
- **Architecture:** Clean Architecture, MVVM, Modularization
- **DevOps & CI/CD:** GitHub Actions, Codemagic, Shorebird
- **Testing:** Unit Testing, Widget Testing, Integration Testing
- **Version Control:** Git, GitHub
- **Development Tools:** Android Studio, Xcode
- **Engineering:** Performance Optimization, Debugging, Code Reviews, Deep Linking, Internationalization (i18n), Localization (l10n).

Professional Experience

Converge Medicare Services - Nigeria, Remote

Senior Mobile Engineer, (July 2025 - June 2026)

- Redesigned and implemented the mobile onboarding and sign-up experience, reducing onboarding time by approximately 30% and improving the overall registration experience.
- Improved application stability by resolving critical production issues and reducing runtime crashes, contributing to an increase in the Google Play Store rating from 4.0 to 4.3.

- Led the development of key product initiatives, including Referral & Earn, a redesigned onboarding flow, and a complete rewrite of the Free Chat experience, improving maintainability and user experience.
- Authored comprehensive technical documentation from the ground up, establishing engineering standards that improved knowledge sharing, developer onboarding, and long-term maintainability.
- Collaborated closely with product managers, designers, and backend developers to deliver high-quality mobile features from planning through production release.
- Implemented CI/CD pipelines using GitHub Actions, automating build and deployment workflows to improve release consistency and reduce manual effort.

HeyFlutter - Germany, Remote

Flutter Developer, **1 year, 8 months** (May 2023 - December 2024)

- Created over 10 comprehensive source codes for YouTube Flutter tutorials, providing high-quality educational resources that reached and supported thousands of developers in the Flutter community.
- Maintained the HeyFlutter website, ensuring consistent functionality, implementing updates, and delivering a smooth user experience.
- Implemented light and dark mode features, increasing user satisfaction by 25% through enhanced UI flexibility and accessibility.
- Designed a framework for tracking team member growth, career progression, and salary increments, leading to a 30% improvement in employee performance metrics and contributing to long-term organizational development.

AmorServ LLC - USA, Remote

Flutter Developer, **4 months** (February 2023 - May 2023)

- Developed a high-performance searching algorithm in Flutter, optimizing the company's technician management system. The algorithm streamlined search processes for over 77,000+ technicians, resulting in faster response times and a 25% increase in operational efficiency.
- Implemented performance optimization techniques, resulting in a 30% reduction in app loading times and enhanced user satisfaction on various devices.
- Developed an internal cross-platform mobile application using Flutter, resulting in efficient codebase sharing and consistent user experiences across Android, iOS, and Web platforms.
- Collaborated with design and product teams to translate wireframes and prototypes into interactive and visually appealing user interfaces.

ECO Africa Global Solution - Nigeria, Remote

Technology Development Ambassador, **8 months** (April 2022 - November 2022)

- Collaborated with the Technology Development Lead (TDL), and executives to design and develop the ECO platform, ensuring alignment with organizational goals.
- Played a key role in the successful development of the Eco mobile application, driving the project from concept to completion.
- Delivered bi-weekly reports to stakeholders, providing clear updates on development progress, challenges, and milestones.
- Trained and mentored 2 team members on development tools and processes, increasing team efficiency and productivity.

Resavation Ng - Nigeria, Remote

Mobile developer, **3 months** (February 2022 - April 2022)

- Contributed to interface design to improve user experience
- Wrote unit and UI tests, improving app quality by identifying and resolving critical issues
- Troubleshoot and debugged to optimize performance, significantly reducing crash rates and increasing app speed.
- Maintained the project codebase through code reviews, refactoring, and documentation updates and participated in pull request reviews.

Education

BSc. Industrial Mathematics(Computer Option) | *UNIVERSITY OF LAGOS*

Akoka, Lagos, Nigeria. July 2023

MBA (Specialization in AI) | *NEXFORD UNIVERSITY*

Washington, DC, USA | Expected 2026

Soft Skills Summary

- Strong problem-solving skills and attention to detail
- Excellent collaboration with designers, backend developers, and product managers
- Self-motivated with the ability to manage priorities in a fast-paced environment
- Commitment to code quality through reviews, documentation, and best practices
- Effective communication skills for translating business requirements into technical solutions
